HO Scale Plastic Car Wash Kit: "What A Wash"

A typical self-serve car wash with 2 outside truck bays, 4 covered bays and 1 enclosed garage. A great way to display on HO scale vehicle collection!

0363 WHAT A WASH \$25.95

(272)

E-R Models™ SIGNAL TOWER

This kit has brick walls that are very finely detailed. Windows and doors are separate pieces. The wall fit is excellent so that it is lighttight. Roof is a four sided hip style with rounded clay tile. Packaged in a clear plastic box.

9002 SIGNAL TOWER \$7.95

E-R Models™ WATER TANK

This HO Scale model of a wooden water tank can be used as a trackside structure or as a small town water tank. The kit can also be used on top of buildings such as factories. This type of water tank was very common until the 1940s. Packaged in a clear plastic box.

9003 WATER TANK \$7.95

THE ORIGINAL!

(019)

FOR
LAYOUT
BUILDING

THE NAIL DRIVER

The E-R Models™ nail driver is a German-made tool that makes driving track nails a breeze! Simply put a nail into the tube where it is held magnetically; then push down on the wooden handle and the nail is driven into the material. The nail driver will drive the track into wood, cork, Homasote and plastic. If the material is a little harder, a small hammer may be used to tap the tool on the metal button on the top of the handle. A "must-have" tool for every modeler!

800 HO/N SCALE NAIL DRIVER \$9.95

E-R Models™ PLATE DECK BRIDGE

HO Scale with Nickel Silver Rail

Bridge is 62 scale feet long (about 8.0 inches). The bridge detail is excellent and is patterned after a typical inverted single track bridge. Guard rail, ties, and rivet detail are excellent.

040-9001 PLATE DECK BRIDGE \$7.95
