

WINTER 2021

NEW ARRIVALS CATALOG

Locomotives, Rolling Stock, Track & Accessories

ATLAS MASTER® N GP20 LOCOMOTIVE, PGS. 8-9

January 2021

Dear Fellow Model Railroader,

Welcome to the Atlas Winter 2021 New Arrivals Catalog. This catalog highlights the latest locomotives, rolling stock, track & accessories arriving at Atlas Authorized Dealers during December, January and February. The vast array of products that have recently arrived or are about to arrive will be sure to keep you and your layout happily busy during the winter months. Among them are the N Master GP20 locomotives, HO Master Dash 8 locomotives, N and HO Master 25,500 Gallon Tank Cars, HO Master 89' Flat Cars and the ever-popular O 40' Wood Reefers!

Though most locomotive and freight cars shown are no longer available directly from Atlas, they may be available at Atlas Authorized Dealers. To contact a Dealer near you check out the Atlas Dealer Locator at <http://shop.atlasrr.com/storeLocator.aspx>. Some items such as the HO & N 25,500 Gallon Tank Cars and the DOWX Christmas Graffiti 5800 Plastics Hoppers were offered in limited quantities and pre-orders were not guaranteed. For these Limited Edition items, we speculate on the desired quantity and begin production before the items are announced in a catalog. We do our best to fulfill as many orders for these items as possible.

The updated Atlas Online Store makes it easy for you to view products and accurately identify the inventory status of each Atlas product in all four available model railroad scales - N, HO, O and now Z. The Stock Status indicator reflects the product status of a listed item at any given time - in-stock, pre-order, backorder, or sold out. Atlas has a historical and unwavering dedication to prototypical accuracy. Unless otherwise noted, every paint scheme that appears on a model we produce has been carefully researched and recreated to look exactly as it did on the prototype.

If you haven't already, please sign up for our email newsletter, the Atlas Insider, by visiting <https://shop.atlasrr.com/t-emailsignup.aspx>. Doing so will ensure that you never miss out on special offers, news or our All Scales Monthly Catalog, featuring each month's announcements, arrivals and more!

Sincerely,

Drew Postle
Atlas Sales Manager

ADDITIONAL QUANTITIES OF THE DOWX CHRISTMAS GRAFFITI CAR ARE ARRIVING IN FEBRUARY 2021

The 5800 cubic foot covered hopper evolved from the earlier 5701 for transporting bulk plastic pellets. Most of these were acquired by private companies including leasing companies, chemical companies, oil companies and plastics companies.

Features:

- Nine full-width panel body with ten weld seams
- Etched metal roof walks
- Ten 20" hatches and Pneumatic outlets (5800 Plastics)
- Transverse mounted air reservoir
- Continuous hatch and gravity outlets (5748 Grain)
- 100-Ton Roller Bearing Trucks
- AccuMate® couplers

AccuMate® couplers are made under license from AccuRail, Inc.

NEW PAINT
SCHEMES!

Atlas Master N Trinity 25,500 Gallon Tank Car
TILX "Louisiana Hot Sauce"

TILX tank cars are used in food service to transport vegetable oil and other liquid ingredients. A number of these tank cars received the colorful Louisiana Hot Sauce logo - but they are not in fact filled with hot sauce, contrary to popular belief. Instead, they are exclusively used to transport vinegar, one of the key ingredients in hot sauce. Atlas' model is a faithful recreation of the prototype and is ready to spice things up on your layout!

0 Scale Models Shown

Atlas' model is of the Trinity 25,500 gallon, insulated, general-purpose design tank car. This was introduced in 1986 and production continues today. There are at least 13,000 presently in service. Typical commodities include vegetable oil, tallow, styrene, benzene, asphalt, biodiesel, acrylates, and numerous other chemicals.

Features:

- Accurate painting and printing
- Numerous detail fittings and components specific to prototype
- Highly detailed body with prototypical jacket seams
- See-through walkway and top platform grating

Silver Sound Ready™

Atlas Silver Sound Ready models are equipped with a speaker for easy conversion to sound with the addition of a decoder. If you need assistance with the upgrade of a Sound Ready model, please contact Atlas Customer Service at 908-687-0880 or csdept@atlasrr.com

Gold Models with ESU Sound

Features:

- Golden-White LEDs
- Directional lighting
- Dual brass flywheels
- Low-friction mechanism
- Accurate painting and lettering
- Magnetic knuckle couplers

DCC OPERATION FEATURES (GOLD items only)

- Supports all DCC-programming modes
- DCC includes RailCom and RailComPlus, with 14, 28 or 128 speed steps and with 2-digit and 4-digit addressing.
- Flexible mapping of function keys F0 to F28.
- A total of 6 DCC function outputs are available, and all can be function mapped (disable, brightness, light effects) individually
- Follows all NMRA DCC standards and recommended practices.

SOUND FUNCTIONALITY FEATURES (GOLD LOCOMOTIVES ONLY):

- Over 20 sound effects are available, including engine start-up and shutdown, prime mover sounds through all eight notches, bell, air horn, air compressor, dynamic brakes and more.
- There are up to 16 user-selectable horns, 2 user-selectable bells, and 2 user-selectable synchronized brake squeals.
- Equipped with ESU's Exclusive "Full Throttle" features for ultimate realism in prototype running.

‡Paint scheme correct for similar 42' open coil steel car

*CSX Licensed Product

The increased volume of coiled steel transportation gave rise to a new purpose-built freight car. Previously rolls of coiled-steel had generally traveled in specially equipped gondola cars. In the 1960's a lighter type of car emerged specifically for hauling coils of steel in an integral trough. The car type gained popularity and eventually over 17,000 cars were built. Atlas' model replicates a 42' design with a distinctive fishbelly side sill.

Features:

- Prototypical painting and lettering
- See-through walks
- Removable hood
- Inside floor detail
- Cut-levers

HO
SCALE

ATLAS MASTER® HO DASH 8-40B/BW/32BWH LOCOMOTIVES

Built in the late 1980s by GE, the DASH 8-40B diesel locomotives were identified by their dynamic brake gear located along the roof line between the cab and engine compartment, with ventilation provided by large roof-top grilles. These four-axle, high horsepower engines are still in service today in North America.

By the early 1990s the North American Cab had begun to replace the "standard" cab on regular production GE 4 and 6-axle locomotives. The only order for 4-axle Dash 8-40Bs with this new cab came from Santa Fe, and thus the Dash 8-40BW model was unique to that road. A total of 83 units total were built and many are still in service today for BNSF.

In 1991 Amtrak, faced with a motive power shortage, turned to GE for an order of 20 Dash 8-32BWH locomotives. This unique model was basically a Dash 8-32B locomotive equipped with a North American Cab and built on the longer Dash 8-40BW frame. Some additional modifications for passenger service were included. A total of 20 units were built and they are still in Amtrak service today.

Features:

- Operating ditch lights and Standard cab or gull wing cab as per the prototype (HO DASH 8-40BW/8-32BWH only)
- Realistic die-cast underframe
- Five-pole skewed armature motor with dual flywheels for optimum performance at all speeds
- Directional lighting
- Factory-equipped with AccuMate® knuckle couplers
- Painted crew figures
- Separately-installed scale windshield wipers, metal grab irons and fine scale handrails
- Highly detailed coupler cut bars
- Multiple unit hoses and trainline hoses
- Snowplow
- Shock absorbers
- Piping on trucks

DCC Operation FEATURES:

- Supports all DCC-programming modes
- Flexible mapping of function keys F0 to F28.
- A total of six DCC function outputs are available
- Follows all NMRA DCC standards and recommended practices.

Analog (DC) Operation FEATURES:

- The LokSound Select Dual-Mode decoder allows your Atlas Gold Series locomotive to be used on DC as well as on DCC layouts.
- Please note that the Atlas Quantum Engineer will NOT operate an Atlas Gold Series locomotive equipped with a LokSound Select decoder on an analog (DC) layout. However, the sound and lighting functions of the LokSound Select decoder in the Atlas Gold Series DASH 8 locomotive can be controlled by an easy-to-use basic DCC system
- Also note that on a DC-powered layout, a DCC and sound equipped locomotive (such as the Atlas Gold Series DASH 8) CANNOT be consisted with another locomotive that does not also have both DCC and sound. (This statement does NOT apply to DCC-equipped locomotives operating on a DCC layout.)

Silver Sound Ready™

Wired speaker and enclosure included for easy conversion to sound.

Silver Sound Ready™

Atlas Silver Sound Ready models are equipped with a speaker for easy conversion to sound with the addition of a decoder. If you need assistance with the upgrade of a Sound Ready model, please contact Atlas Customer Service at 908-687-0880 or csdept@atlasrr.com

Gold Models with ESU Sound

The Dash 2 locomotive series, unveiled by EMD in 1972, featured significant changes, such as a solid-state, modular electrical control system and improved engine components designed to increase traction and reduce exhaust emissions. A reliable work-horse, the GP38-2 remains one of the most successful locomotives ever built. Most are still in service today.

FEATURES:

- NMRA 8-pin plug for DCC
- The same drive as our basic Master Series™, in an affordable locomotive
- Five-pole skewed armature motor with dual flywheels
- Separately applied hand rails and end railings
- Locating dimples for grab irons
- True scale dimensions with accurate details
- Realistic die-cast underframes
- Equipped with AccuMate® Couplers
- As with our Master Series™ GP-38, this model features either a 2,600 or 3,600 gallon fuel tank, depending on the prototype.

DCC OPERATION FEATURES:

- Supports all DCC-programming modes
- Flexible mapping of function keys F0 to F28.
- A total of six DCC function outputs are available
- Follows all NMRA DCC standards and recommended practices.

SOUND FUNCTIONALITY FEATURES (Gold Models with ESU "Essential Sound"):

- 4 function outputs with brightness control by CV
- 14, 28, 128 speed steps
- Dual mode DC and DCC
- 4 air horns changeable by CVs
- 2 bells changeable by CVs
- Full 8-notch prime mover sounds
- Compressor
- Dynamic brake

In 1972, Berwick Forge & Fabricating, of Berwick, Pennsylvania began producing modern 50' sliding door box cars which featured their new corrugated non-terminating "sine-wave" ends. Initially sold to over 35 railroads across the nation, these box cars were an unfortunate casualty of the economic recession of the late 1970's and Berwick was forced to stop production in 1982. However, Berwick's 50' hauler found a place in railroad history through a strong second hand market that continues even today.

Features:

- Ready-to-run
- Full under body detail with brake rigging
- Overhanging X-panel roof
- Non-terminating sine wave ends
- Separately applied wire grabs
- Detailed end ladders and brake gear
- Accurate painting and printing
- Blackened metal wheels
- AccuMate® couplers

AccuMate® couplers are made under license from AccuRail, Inc.

The ACF® 89' 4" flat car was introduced in the late 60s as a result of a continuing need for more intermodal platform capacity. The Atlas model is based on the 1973 version that was originally designed to carry two trailers or combinations with containers. The cars have been used by Trailer Train and various railroads in intermodal service since that time. Many of these were modified in the late 80s to accept longer trailers. Most of those remaining in TTX service, today, have been modified with three hitches to accommodate up to three shorter package trailers.

Features:

- Based on ACF® plans
- Two different styles of hitch
- Container pedestals
- Correct model year jack pads
- Recommended 24" radius
- AccuMate® couplers

AccuMate® couplers are made under license from AccuRail, Inc.

ATLAS MASTER® HO 25,500 GALLON TANK CAR

**NEW PAINT
SCHEMES!**

**Atlas Master HO Trinity 25,500 Gallon Tank Car
TILX "Louisiana Hot Sauce"**

TILX tank cars are used in food service to transport vegetable oil and other liquid ingredients. A number of these tank cars received the colorful Louisiana Hot Sauce logo - but they are not in fact filled with hot sauce, contrary to popular belief. Instead, they are exclusively used to transport vinegar, one of the key ingredients in hot sauce. Atlas' model is a faithful recreation of the prototype and is ready to spice things up on your layout!

Side 1

Side 2

**Atlas Master HO Trinity 25,500 Gallon Tank Car
ADMX "Kung fu Fighters" Graffiti Car**

Atlas' Research & Development Team does a fair share of railfanning before and after work and on their lunch breaks. During one of these outings Atlas' CEO, Paul Graf, captured this ADMX tank car with unique and humorous Kung Fu fighter graffiti awaiting delivery to a local salad dressing factory in Hillside, NJ. Atlas' model is a careful recreation of this unique prototype!

O Scale Models Shown

Atlas' model is of the Trinity 25,500 gallon, insulated, general-purpose design tank car. This was introduced in 1986 and production continues today. There are at least 13,000 presently in service. Typical commodities include vegetable oil, tallow, styrene, benzene, asphalt, biodiesel, acrylates, and numerous other chemicals.

Features:

- Accurate painting and printing
- Numerous detail fittings and components specific to prototype
- Highly detailed body with prototypical jacket seams
- See-through walkway and top platform grating

Built in the 1980's by ACF®, the Coalveyor Bath tub Gondola operated in unit train service to deliver coal to power plants. These cars were most often lettered for the utility companies that leased and purchased them. Many are still in service today.

Features:

- Die-cast chassis
- Ready-to-run
- Interior bracing
- Removable coal load
- 3-Rail cars equipped with rotating coupler at one end
- Brake detail
- 100 ton roller-bearing trucks w/ rotating bearing caps
- Accurate painting and printing

3001566	Producers Produce Co. (Yellow/Brown)	3002566

This highly detailed model is based on the 40' wood refrigerator cars built by Pullman for the Northern Refrigerator Car Co. in 1930. With its rooftop ice hatches, USRA-style fish belly underframe and vertical brake shaft, it is representative of the thousands of similar cars that were built during the "Billboard" era of American railroads.

Available in 2-rail as well as 3-rail, these ready-to-run reefers have state-of-the-art detailing and construction.

Features:

- Highly detailed ABS body
- Separately-applied ladders, grab irons and stirrups
- Die-cast metal stirrups
- Separately-applied door hinges, handles and latches
- Opening doors
- Separately-applied opening roof hatches, hinges and latches
- Die-cast underframe
- Separately applied brake system and vertical brake shaft
- Separately-applied coupler lift bars
- 40-ton Bettendorf-style, die-cast sprung trucks with metal wheels
- Die-cast articulated couplers (3-Rail)
- Minimum diameter curve: O-31 (3-Rail)
- Minimum radius curve: 24" (2-Rail)
- 2-rail models feature body-mounted scale knuckle couplers & scale 33" wheelsets.

Two road numbers available per road name.

Pullman Standard's 4750 cubic foot covered hopper was one of the most successful freight car designs in that company's history. Over 54,000 of these cars were produced during the latter part of the 1970s and early 1980s. It was the premier grain hauler of the era and is still in use.

Found throughout the country on virtually all of the class 1 rail lines, it is also one of the most leased cars through the Transport Leasing Division of Pullman. The cars were painted a virtual rainbow of colors.

Features:

- Accurate and colorful painting and lettering
- True scale dimensions with accurate details
- Separately-applied roof walk, brake wheel and other details
- Unique body design with "step-curve" roof
- Die-cast 100 ton roller bearing trucks with rotating bearing caps
- Die-cast articulated couplers (3-rail)
- Weighted to NMRA standards
- 2-rail cars feature scale 36" wheel sets & Kadee-compatible scale couplers
- Minimum diameter curve: 0-36 (3-rail)
- Minimum radius curve: 36" (2-rail)
- Length over couplers: 15"
- Height: 3.60"

This 53' boxcar was manufactured in the 1960s and '70s by Evans Company and was used primarily to haul produce, wood and paper products, and canned goods. The prototype is an insulated RBL featuring a 16 foot opening and double plug doors.

Features:

- True 1/4" scale dimensions and details
- Die-cast floor with complete undercarriage detail
- Separately-applied ladders, brake wheel, safety platform, door bars & handles
- Die-cast sprung 70-ton roller bearing trucks
- Accurate painting and lettering
- Two rail units incl. scale wheels & Kadee®-compatible scale couplers
- Minimum diameter curve (3-rail): 0-31
- Minimum radius curve (2-rail): 36"
