Holiday O-Gauge Accessories.....	182

Welcome friends to a new year of fun in the world of Lionel trains! If you're new to this exciting hobby, the catalog you're now holding is the perfect place to begin your journey. Lionel's most popular size of train, called O-Gauge, makes up the greatest portion of this catalog. Here you'll find a wonderful assortment of O-Gauge train sets to choose from, and all "Ready-to-Run" right out of the box. O-Gauge train sets built by Lionel are all controlled by a simple LionChief™ remote controller that comes included with your set. It's simpler to use than the transformer controllers of the past and fun for any age! This is the future of Lionel trains—today.

Turn to the second half of this catalog to see all of Lionel's Christmas-related products for 2016. No other train company offers such a variety of items to choose from for the holidays, including train sets, freight cars, accessories, holiday gifts and home apparel!

Keep your eyes open for many specially-branded items spotlighted throughout the catalog. Disney, Shell, the Smithsonian Institution, D.C. Comics, and the ever-popular The Polar Express are just a few of the brands we're excited to be partnered with in 2016.

In addition to O-Gauge, you'll also find holiday and non-holiday products in S-Gauge, Ready-to-Play and our newest line, Imagineering. Each of these systems has its own unique size, so if you're new to the hobby take a few minutes to review our "Product Guide" on the next page. Here at Lionel, we're certain that we have just the right train set, car, or accessory for you no matter how new or experienced you are in the hobby. Enjoy the new year with everyone and everything you love, and we hope at the center of it all there's a Lionel train there for all to share and enjoy.

LIONEL READY-TO-RUN PRODUCT GUIDE

LIONEL BASICS

Lionel's newest line, Imagineering, is built with chunky track that's easy to handle and connect for your smallest engineers. Designed for ages two and up, this push-and-pull set is a great introduction to the world of trains.

Gauges

Gauge refers to the distance between the outside rails of the track. Throughout this catalog we focus on two different gauges: Ready-to-Play and O-Gauge.

Ready-to-Play

Lionel Ready-to-Play is a large-sized train that's made to be affordable and easy-to-use for both kids and adults alike. The locomotives are battery-powered and made of durable plastic. They're controlled with a simple handheld remote control and run on easy-to-connect plastic track. If you're looking for something that's affordable and you prefer the easy-to-handle large size, a battery-powered Ready-to-Play set is a good choice for your family.

O-Gauge

This is Lionel's most prevalent and popular system, as it's been since the 1940's! It's simple to remember that our O-Gauge has three rails of track, and the outer rails on the track are always $1\frac{1}{4}$ " apart. Engines and cars that fit on this size track are all O-Gauge; it's as simple as that! The Ready-to-Run sets that you see in this book all come with our easy-to-connect track system called FasTrack. It looks different than the older "tubular-style" track by Lionel, but its realistic look, high quality, and easy connecting have made it the singular choice for all our new O-Gauge sets.

OPERATION

LIONCHIEF™

A majority of the entry sets in this catalog you're holding include our LionChief remote control to operate the locomotive, and you supply power to your train layout by simply plugging the included power pack into a DC wall outlet and the other end into your track. Easy to use, and with many enhanced features including a wider range of realistic sounds, such as chuff sounds that are in sync with your engine's puffing smoke and three buttons on the control to activate user-controllable announcements and engines sounds. Long-distance control and multi-engine operation on one layout are in your grasp with the LionChief remote control system.

LIONCHIEF™ PLUS

When you're ready to move to the next level in locomotive realism and features, take a close look at our LionChief Plus assortment of locomotives. These engines use the LionChief remote similar to the one you would receive in a set, but they also come equipped with many high-end features that add high-quality realism and a fuller train experience to your play. Features like remote control uncoupling, fan-driven smoke, increased motor power, and a higher level of realistic locomotive details are just a few of the special additions on LionChief Plus engines. But what really sets LionChief Plus apart from so many other lines is the ability to operate with either the provided remote OR with just a flip of a switch on the locomotive, you can control your locomotive with a traditional transformer.

EXPANSION

Increase Your Model Railroad Empire

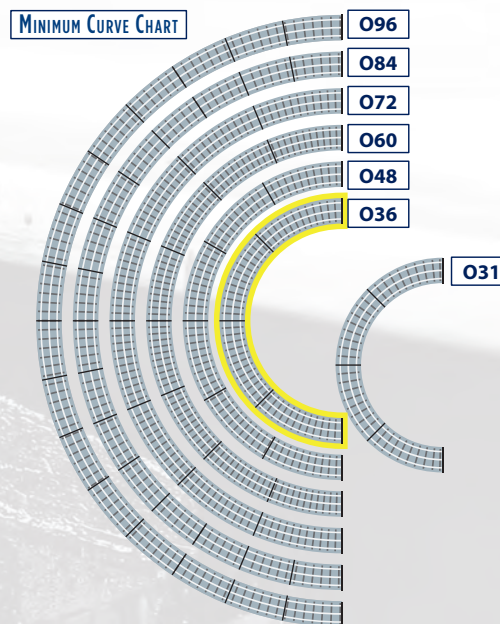

One of the most exciting things about model railroading is creating the layout of YOUR dreams! In each set we offer a simple oval FasTrack™ layout, but why stop there? We offer a large assortment of FasTrack to help take your track plan to the extreme. Once your track plan is achieved, mix, match, and add any of the O-Gauge freight and passenger cars seen throughout the catalog to your set to

create your perfect consist! And don't forget about accessories! Many accessories you will see throughout this catalog are non-operating and can be set anywhere you'd like around your set. Others having operating features with specific special functions, adding a new dimension to your train operations and play. Operating accessories are easier to connect than ever before with Lionel's new Plug-n-Play system. Plug-n-Play is designed to simplify connecting accessories to your existing layout, and eliminate any fuss with more complicated wiring.

Recommended Minimum Curve

Lionel locomotives and rolling stock are thoroughly tested to determine their Minimum Curve requirement. In some cases, a Lionel car or locomotive may be able to easily negotiate most, but not all, possible track configurations for that Minimum Curve. For these products, a Recommended Minimum Curve is also given. This larger measurement allows for all combinations of Lionel track and switches.

* O36 curved FasTrack™ is included in all Ready-to-Run sets.

JOHN DEERE IMAGINEERING SET

JOHN DEERE

NEW HAVEN TRAILLINER ALCO FA SET

A. New Haven Trailiner Alco FA Remote Set 6-83074 NEW!

Embark on a new east coast adventure aboard the Trailiner! This special freight set is led by a classic FT diesel dressed in New Haven's famous and colorful McGinnis paint scheme. The Trailiner freight set also includes an eastern-region flatcar with two trailers, boxcar, and an illuminated caboose with high quality die-cast trucks. As a Ready-to-Run train set, you'll also get all the track and power you need to run your set right out of the box.

Set Includes:

- Powered Classic FT locomotive
- Boxcars
- Flatcar with Piggyback Trailers
- Caboose
- Eight curved 036 FasTrack® track sections, one 10" straight FasTrack® Plug-n-Play power lock-on section, one FasTrack® terminal section, and two 10" straight FasTrack® sections.
- NEW! 54W wall pack power supply
- LionChief™ Remote for locomotive

Locomotive Features:

- Electric locomotive controlled by remote
- On/Off switch for smoke and sound
- RailSounds RC™ sound system with diesel

revving and background sounds, horn, bell, and user-activated announcements

- Operating headlight
- Two powerful maintenance-free motors
- Operating coupler
- Directional headlights

Freight Car Features:

- Operating couplers
- Opening doors on boxcars
- Two removable trailers on flatcar
- Interior illumination in caboose
- Eight curved 036 FasTrack™ track sections
- Three 10" straight FasTrack™ track sections
- One FasTrack™ terminal track section
- Wall pack power supply
- LionChief remote for locomotive

LionChief™ Remote Features:

- Forward and reverse speed control knob
- Three buttons to activate whistle, bell, and special announcements
- Requires three AAA alkaline batteries (not included)

Set Features:

- Set Length: Approx. 48"
- Layout dimensions: 40" x 60"
- Minimum Curve: 027

\$399.99

B. Pennsylvania Merchandise Boxcar 6-83077

PENNSYLVANIA ALLEGHANY HAULER SET

A. Pennsylvania Allegheny Hauler Berkshire LionChief™ Set 6-81269 NEW!

High in the Alleghenies of Pennsylvania, a mighty Berkshire steadily makes its way on the iron rails hauling a heavy line of freight cars. America's most famous railroad never sleeps, and this Pennsylvania steam locomotive works hard to get its goods to their destination on time. The "Allegheny Hauler" is one of Lionel's highest caliber traditional sets in 2016 and includes a deluxe "Figure 8" set of track to add to the excitement. There's no shortage of great cars in this special set, including three freight cars with die-cast sprung trucks and an illuminated caboose with antennas on the roof. Led by a LionChief™ Berkshire, this deluxe train set brings high quality excitement and action to your layout!

Set Includes:

- Berkshire locomotive
- Gondola with covers
- Single-dome tank car
- Double-door boxcar
- Porthole caboose
- Eight curved 036 FasTrack® track sections, one 10" straight FasTrack® Plug-n-Play power lock-on section, one FasTrack® terminal section, and two 10" straight FasTrack® sections.
- **NEW!** 54W wall pack power supply
- LionChief™ Remote for locomotive

Locomotive Features:

- Electric locomotive controlled by remote
- Operating headlight
- Puffing smoke
- On/Off switch for smoke and sound
- **RailSounds RC™** sound system with steam chuffing and background sounds, whistle,

bell, and user-activated announcements

- Chuffing sounds in sync with puffing smoke
- Die-cast locomotive body, frame, and trucks
- Powerful maintenance-free motor with momentum flywheel
- Traction tires
- Engineer and fireman figures
- Die-cast metal tender body and trucks
- Operating coupler on rear of tender

Freight Car Features:

- Die-cast metal sprung trucks except caboose
- Die-cast metal trucks on caboose
- Operating couplers
- Opening doors on boxcar
- Metal handrails, platform, and ladders on tank car
- Removable coil covers on gondola
- Interior illumination in caboose
- Antenna system on caboose roof

LionChief™ Remote Features:

- Forward and reverse speed control knob
- Three buttons to activate whistle, bell, and special announcements
- Requires three AAA alkaline batteries (not included)

Set Features:

- Set Length: Approx. 60"
- Layout Dimensions: 40" x 60"

THE PATRIOT U36B SET

A. "The Patriot" U36B Freight Set 6-82427

There have been many patriotic paint schemes applied to actual locomotives and cars over the years, especially around the U.S. Bicentennial period in 1976. In fact, official events of the Bicentennial celebration across America were initiated by the railroads with a 21-month tour of the American Freedom Train traveling through 48 states. Remembering the American Revolution and the binding pride we all share in the United States of America, Lionel presents this freight set dressed in patriotic

red, white, and blue. Inspired by actual cars on the railroad, this set features the American flag, the Presidential Seal, and the stars and stripes of the U.S.A. on the various cars. A unique Patriot logo is also spotlighted on the rugged U36B diesel locomotive and caboose.

Set Includes:

- U36B diesel
- 2-bay hopper with coal load
- Boxcar
- Porthole caboose with illumination
- Eight curved 036 FasTrack™ sections, three

10" straight FasTrack™ sections, and one 10" FasTrack™ wall-pack terminal section

- Wall-pack power supply
- LionChief™ remote for locomotive

Locomotive Features:

- U36B diesel controlled by remote
- On/Off switch for sound
- RailSounds RC™ sound system with diesel revving and background sounds, and user-activated horn, bell, and announcements
- Operating headlights
- Dual maintenance-free motors
- Traction tires
- Engineer and fireman figures

Freight Car Features:

- Operating couplers
- Opening doors on boxcar
- Removable coal load insert in hopper
- Metal frame and interior illumination in caboose

LionChief™ Remote Features:

- Forward and reverse speed control knob
- Three buttons to activate whistle, bell, and special announcements
- Requires three AAA alkaline batteries (not included)

Set Features:

- Set Length: Approx. 42"
- Layout dimensions: 40" x 60"
- Minimum Curve: 031

LIONCHIEF™ UNIVERSAL REMOTE

Running multiple locomotives has never been easier! Use this single remote to operate any of your LionChief™ Plus locomotives. Your need for multiple remotes is a thing of the past. It's that simple.

Choose to run one, two, or three locomotives at any time using a single Universal remote! Within seconds at startup, LionChief™ engines on the track are identified and loaded into the remote memory. Push one of the three buttons on the remote dashboard to run the engine of your choice! Simple as 1-2-3.

THE LIONCHIEF™ UNIVERSAL REMOTE FEATURES:

- Control any existing or future O Gauge LionChief™ Plus locomotive
- Control most O Gauge Ready-to-Run LionChief™ set locomotives
- Control any existing or future S-Gauge FlyerChief™ locomotive
- Load and operate up to three locomotives per remote at any one time
- Operate three additional locomotives on the same layout by adding a second universal remote
- Choose between any one of the three engines with the simple 3-button control
- LED Illumination on 1-2-3 buttons when pressed
- On/Off Switch to preserve battery power
- Remote “Train Memory” preserves current speed and direction of engine when toggling operation between different locomotives
- Even after power down and restarting remote retains memory of the specific engines loaded in system
- “Easy Clear” feature allows you to quickly remove and add new locomotives into remote memory as needed
- Forward and reverse speed control knob
- Additional buttons for whistle sound, bell, special announcements, and ElectroCoupler™ activation
- Requires three AAA alkaline batteries (not included)

A. 6-83071 \$49.99

FRONT VIEW

LIONCHIEF™ PLUS STEAM

LionChief™ Plus locomotives offer our most-desired features with the flexibility of conventional or simple radio control at a price that makes expanding your railroad easier. Rugged, powerful and feature-rich, our growing line of LionChief™ Plus steam has the power you need to take your layout to the next level.

LionChief™ Plus Steam Locomotives Features:

- Conventional AC transformer control mode or LionChief™ wireless remote control with AC or DC power
- **ElectroCoupler™** on rear of tender (controlled by remote only)
- A5 0-4-0 equipped with **ElectroCoupler™** on front as well as rear of tender
- Operating headlight
- Synchronized fan driven smoke
- On/Off switches for sound and smoke.
- RailSounds RC™ sound system with steam chuffing and background sounds, whistle, bell, and user-activated announcements
- Adjustable volume (controlled by remote only)
- Speed control for consistent speed at all ranges regardless of track condition or load
- Flickering firebox
- Chuffing sounds in sync with puffing smoke
- Powerful maintenance-free motor
- Die-cast metal locomotive body, frame, and trucks
- Die-cast metal tender body and trucks
- Metal frame on tender
- Engineer and fireman figures
- Traction tires
- Length:

POST-WAR INSPIRED FREIGHT CARS

Post-War Inspired Freight Cars

Select boxcars, tank cars, and flatcars by Lionel are now manufactured in America! It's the perfect time to revisit some classic paint schemes from Lionel's Postwar era.

These special freight cars get their inspiration from the original 6464-series of Lionel boxcars, with classic decoration applied to U.S. made flatcars and tank cars, in addition to the boxcars. Postwar favorites including Great Northern, Timken, and Santa Fe are all featured in our expanding line of Lionel freight cars made in the USA!

Rolling Stock on Pages 96-97 Feature:

- Made in USA of U.S. and Imported Parts
- Die-cast metal sprung trucks and operating couplers
- Opening doors on boxcars
- Metal frame and brake wheel on boxcars
- Metal handrails, platform, and ladders on tank cars
- Removable load on flatcar decks

PLUG-N-PLAY

With the new Plug-n-Play system by Lionel, operating accessories on your layout has never been easier! Usable on any AC or DC powered layout but designed especially for FasTrack™ users, the Plug-n-Play system simplifies what's needed to connect your operating accessories. It also minimizes the need to mess with bare wires on any FasTrack layout. This accessory system is as simple as the name—Plug the accessory into your powered track and you're ready to Play!

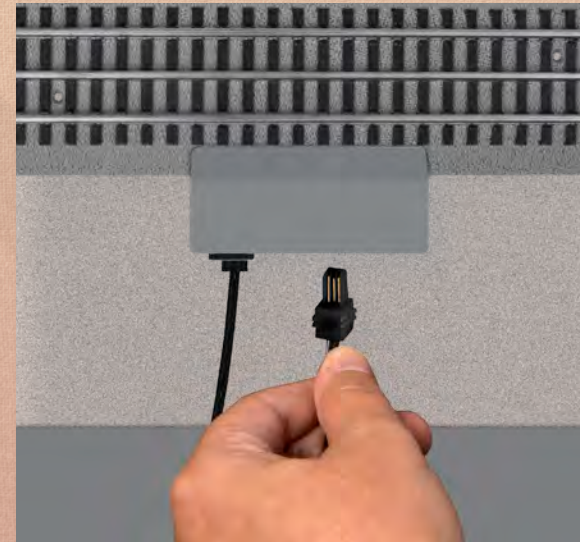

- ✓ Easy set up
- ✓ Simple standard cable system
- ✓ Improved and simple operation

1

Position your Plug-n-Play accessory on your layout

Plug accessory into Plug-n-Play lock on

2

Plug in your power supply or Power up your transformer

3

For railside excitement all along the line!

AN AFTERNOON IN THE PARK

EACH ACCESSORY ON PAGES 126-131

- Connects easily to FasTrack with a Plug-n-Play Lock-on (sold separately)
- Connects to a traditional 0/027 track lock-on or to an accessory power supply (lock-on and power supply sold separately)
- Can be upgraded to command control with the purchase of a SC-2 Switch Controller or an ASC2 (both sold separately)

A. Playground Playtime 6-82104

On a warm summer day in Lionelvill Park, children spin around and around on the merry-go-round playset until they're dizzy, and swing so high their toes almost touch the clouds!

Set Features:

- Seven simultaneous animations; four swings, two see-saws and one merry-go-round
- Twelve hand-painted figures
- Trash can conceals On/Off switch
- Mounting tabs to secure accessory to layout (optional)
- Dimensions: 6" L x 8" W x 3" H

\$99.99

B. Playground Swing 6-82103

- Two children swing back and forth
- Five hand-painted figures
- Dog conceals On/Off switch
- Mounting tabs to secure accessory to layout (optional)
- Dimensions: 4 1/2" L x 4 1/2" W x 3" H

\$74.99

C. Tire Swing 6-82105

Remember whittling away the hours on a warm summer day, kicking your feet up toward the clouds on your favorite tire swing? You were awaiting your next big adventure—or mom to call you in to dinner, whichever comes first!

Features:

- Figure swings back and forth
- Realistic foliage
- Mounting tabs to secure accessory to layout (optional)
- Dimensions: 6" diameter x 8 1/2" H

\$99.99

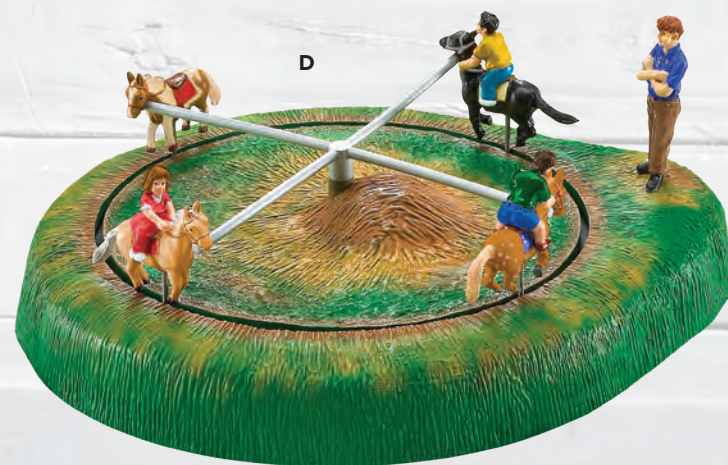

D. Pony Ride 6-82106

Three excited children sit atop ponies and hold on tightly as the small horses make their way around the circle. The attendant stands by watching the action.

Features:

- On/Off switch located on underside
- Four ponies move around the circle
- Four detailed figures
- Mounting tabs to secure accessory to layout (optional)
- Dimensions: 6" diameter x 8 1/2" H

\$74.99

E. Tug-of-War 6-82107

At the Lionelville town picnic, everyone enjoys a little friendly competition. The tug-of-war game is in full swing. Which side will win?

Features:

- On/Off switch located on underside
- Three animated figures on each side pull the rope back and forth
- Mounting tabs to secure accessory to layout (optional)
- Dimensions: 6" diameter x 3" H

\$64.99

A LIONEL CHRISTMAS

The fire is crackling, cookies are in the oven, and it's almost time to put up the tree. What's missing? Christmas isn't complete without a train underneath the tree and beautiful decorations all around. Here at Lionel we believe that giving the gift of trains will be the best placed present beneath your evergreen.

And why stop there? From ornaments to stockings and the holders from which they fall, Lionel offers all the pieces you need to complete your home this holiday season.

Welcome the newest addition to our Christmas collection, Disney! See some of your favorite characters all dressed up in their Christmas best, just waiting to travel your season's track. With Mickey, Minnie and the gang, these items are sure to bring the magic of Christmas and the wonder of Disney to your home this holiday.

In addition, The Polar Express is back and more festive than ever! With an abundance of train cars, figurines and a variety of decorative accessories, your layout is sure to ring loud and clear.

We hope that you make Lionel a part of your Christmas décor and as always, we wish you and yours a happy and safe holiday season.

THE POLAR EXPRESS™

Do you still hear the ring of the bell at Christmas? Or look for the magical train? The Polar Express by Chris Van Allsburg has become a holiday classic for all ages especially for those seeking a bit of Christmas magic like the young boy hero.

Lionel's world of The Polar Express embraces the entire family in Christmas fun. From the perfect under-the-tree Ready-to-Play set to the LionChief™ train and rolling stock, your home will be filled with excitement. Newest to Lionel's The Polar Express collection is our push-and-pull Imagineering set for your youngest Christmas engineers. Any and all of these classic items will be sure to inspire the magic of Christmas and keep the ring of Santa's sleigh bells crisp and clear for many years to come.

PLUG-N-PLAY HOLIDAY ACCESSORIES

A. North Pole Central Icing Station 6-82051

There's no shortage of ice at this North Pole station to load into incoming refrigerated boxcars. Watch as the festive figure pushes the ice cubes from the chute down to the awaiting ice car (*sold separately*). Position the ice car at the platform, and load it up. Operate this accessory on any traditional AC or DC powered O/027 or FasTrack® layout.

Features:

- Ice blocks are loaded into the house manually with the long chute, then sent down the short station chute to operating figure
- Metal base
- Includes 10 ice blocks
- Ice car sold separately
- Plug-n-Play accessory connect easily to FasTrack® with a Plug-n-Play Lock-on (*6-81313, sold separately*)
- You can also connect to a traditional tubular O/027 track lock-on or to an accessory power supply (*both sold separately*)
- Can be upgraded to command control with the purchase of a SC-2 Switch Controller or an ASC2 (*both sold separately*)
- Dimensions: 11" L x 4" W x 8" H

\$149.99

B. North Pole Central Icing Car 6-82053

- Die-cast metal sprung trucks
- Operating couplers
- Compatible with any Lionel icing station accessory
- Metal frame
- Includes 12 ice blocks
- Length: 10"
- Minimum Curve: 027

\$74.99

C. "Santa's Work Shoppe" Sawmill with Sounds 6-82050

Santa's elves are busy at the sawmill cutting up wood needed for the new toys. Follow the logs as they enter the sawmill by conveyor belt and watch in amazement as Christmas presents come out of the other side. Elves need to be safe too! Safety strobe lights on both sides of main room warn the holiday workers to be careful around the action. A matching Christmas log dump car is available separately.

Features:

- Remote control function from CAB-1, CAB-1L and CAB-2 includes:
 - Operation of strobe lights
 - Sawmill sounds control
- Requires an operating uncoupling track (*sold separately*)
- Powerful maintenance-free motor
- Includes wooden logs and boards
- Compatible with all Lionel log dump cars (*sold separately*)

For all of your FasTrack® needs, check out our 2016-2017 Track and Power Catalog

POWER

A. CW-80 Transformer 6-14198

Operate your favorite features with the bell, whistle/horn, and direction buttons. On the rear of the unit, you will find a 0-18 volt variable AC output, as well as a programmable AC output for accessory operation. Simply set the accessory voltage to your desired output, and your accessory operates at that output until you turn the unit off – even when you stop the train. Perfect for train sets and small- to medium-sized layouts, the CW-80 provides the power you need to enjoy all your Lionel favorites.

Features:

- AC output
- Supplies up to 80 Watts of power

\$149.99

B. GW-180 Transformer 6-37947

Even more power for operating trains and accessories on expanding and medium-size layouts!

From the Postwar-inspired styling of the controller, to the mighty PowerHouse power supply that provides a circuit breaker and on/off switch, this transformer has all the power you need, plus electronic overcurrent protection to help save your sensitive electronics in the event of a short circuit.

Use the throttle lever to control speed and power. Operate your favorite features with the bell, whistle/horn, and direction buttons. Two outputs are available on the rear of the unit. A 0-18 volt variable AC output serves as your main track power source. The other programmable AC output is perfect for accessory operation from the same transformer. On the accessory output, simply set

the accessory voltage to your desired level for continuous operation until you turn the unit off, completely independent of the train's operation.

Features:

- AC output
- Supplies up to 80 Watts of power
- Circuit breaker and On/Off switch

\$279.99

C. 1.8 Amp Accessory Transformer 6-32923

Power your Lionel accessories with the 1.8 Amp Accessory Transformer. This affordable power supply features variable AC voltage so you can supply the right amount of power to your accessories.

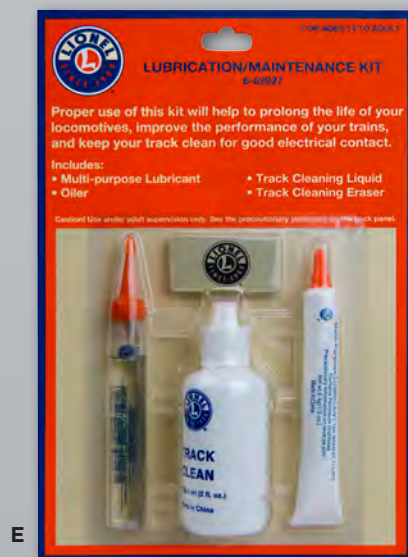

\$45.99

D. LionChief™ 72-Watt Wall-Pack Power Supply (4 Amp) 6-81603

Connect the LionChief™ 72-Watt Wall Pack Power Supply (or the 36-Watt version found in LionChief™ RTR sets) directly to the the LionChief™ Terminal FasTrack® to power any LionChief™ FasTrack® Layout. Now you are ready to run any LionChief™ or LionChief™ Plus locomotive, with enough power to expand.

\$54.99
