HOLIDAY GIFT & DÉCOR 50-61

Ho Ho Ho! Greetings from the North Pole!

Christmas preparations are underway here at the North Pole. It's an exciting and busy time for me: the elves are making toys, the reindeer are practicing their sleigh runs, and I'm busy prepping my list of who's been naughty and nice this year. It takes a full 364 days to get things just right.

I receive so many letters each year asking how I manage the gift-requests, the mischievous elves, the reindeer and even my appetite!

Well, I'll tell you a secret. I've been working with Lionel for over a century now and we have created some of the most beloved toys for boys and girls across the world. This year, we've built some cool new items that are sure to put a smile on every face this Christmas... those who made the nice list, of course!

All that children seem to want for Christmas are the latest gadgets like smart phones and tablets. So we thought, "Why not equip our new train sets with Bluetooth, like The Polar Express and Mickeys 'Holiday to Remember' LionChief Sets?!" To find out which sets our elves have installed with this "hip" new technology, look for the LionChief Bluetooth LE icon throughout this catalog.

Mrs. Claus thought we needed a little something for the little ladies, too. So, I made sure we added some new and fun personalized items to the line-up. And just to add that special touch under the tree, we've even included some festive home décor.

Well, it's time for me to get back to work. If you want your Lionel toy this year, than you better be good for goodness-sake!

Merry Christmas!
Santa Claus

P.S. Don't forget the cookies and milk!
