CHARGER SC-44 DIESEL-ELECTRIC LOCOMOTIVE (DCC WOWSOUND® EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$459.00 each

SHIPPING 2020

Bachmann's all new DCC sound-equipped SC-44 Charger uses Siemens Mobility's original design documentation and sound files. This model includes a TCS WOWSound® CD-Quality 16-bit 44,100Hz decoder with Audio Assist® for easy configuration without programming CVs and a Keep-Alive® device for uninterrupted operation, even over dirty track. The WOWSound® diesel-electric locomotive sound package includes horn, bell, prime mover, start-up/shutdown, compressor, cooling fan, coupler close/release, brake release and application, crew alert, grade crossing quill, departing and arriving station announcements, and more. Loaded with prototypical features, the Charger brings all the sights and sounds of Siemens' diesel-electric locomotive to your layout.

Features include:

- Siemens-approved design
- DCC sound-equipped for sound, speed, direction, and lighting control
- TCS true CD quality audio in 16-bit 44,100Hz sound
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist® programming tool for easy set-up of almost all decoder functionality
- dual-mode NMRA-compliant decoder
- directional headlights
- interior corridor work lights
- roof-mounted strobe lights, per prototype
- marker lights
- steady/alternate flashing ditch lights
- die-cast frame
- separately applied windshield wipers, grab irons and detail parts

2-10-0 RUSSIAN DECAPOD (DCC WOWSOUND® EQUIPPED)

FEATURING NEW CHUFFINITY™ TECHNOLOGY

Performs best on 22" radius curves or greater.

Suggested price: \$549.00 each

SHIPPING NOVEMBER

With the advent of the Bolshevik Revolution in 1917, the Baldwin Locomotive Works was forced to stop shipment of over 100 Decapod 2-10-2 engines originally bound for Czarist Russia. These "orphan" locomotives later found homes with American railroad companies and helped relieve a scarcity of motive power after WWI. They are now part of a new revolution in model train sound realism, equipped with a TCS WOWSound® CD-Quality 16-bit 44,100Hz decoder with Audio Assist®. This decoder allows easy configuration without programming CVs as well as a Keep-Alive® device for uninterrupted operation, even over dirty track. It also features Chuffinity™ technology for amazingly diverse and realistic chuffs and a WOWSound® steam locomotive sound package that includes bell, whistle, blow down, cylinder cocks, water fill, coupler close/release, brake release and application, grade crossing quill, depot sounds, and more.

- DCC sound-equipped for sound, speed, direction, and lighting control
- true CD quality audio in 16-bit 44,100Hz sound
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist® programming tool for easy set-up of almost all decoder functionality
- dual-mode NMRA-compliant decoder
- operating headlight
- completely hidden drivetrain
- cog V-belt flywheel drive
- precision motor
- precision balanced brass flywheel

- metal motor bearings
- separately applied stack, domes, and cab
- separately applied parts including bell, whistle, pop valves, cut levers, handrails, and stanchions
- separate sanding lines
- highly detailed cab interior
- painted crew figures
- siders blackened per prototype
- die-cast finescale driver spokes
- tender with all-wheel electrical pickup, detailed coal boards, and metal handrails
- E-Z Mate® Mark II couplers, front and rear

ACELA EXPRESS® BUSINESS CLASS CAR with LIGHTED INTERIOR

Performs best on 22" radius curves or greater.

Price to be announced

SHIPPING 2020

Modelers can accurately duplicate Amtrak's standard, six car, high-speed commuter train by adding additional passenger cars to the Acela Express® train set (Item No. 01205).

Car features:

- tilting chassis to travel smoothly around curves at high speeds
- flush windows
- lighted interior
- blackened RP25 wheels

- photo-etched, blackened brass inserts on air ducts
- finescale interior detail, including passenger seats and tables
- performs best on 22" radius or greater

DCC-EQUIPPED TURNTABLE
Item No. 46298
Suggested price: \$299.00
SHIPPING NOVEMBER

This DCC-equipped motorized turntable features:

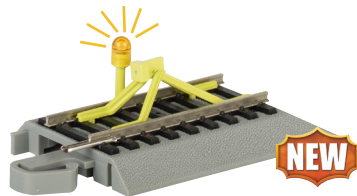

- DCC-equipped with dual-mode NMRA-compliant decoder
- 16 nickel silver track positions
- gear drive
- turntable indexed to each track section for accurate alignment

- painted maintenance building
- prototypical operator's cabin
- designed for use with Bachmann's *E-Z Track*[®]
- easily adaptable to other popular track systems
- spring-loaded direction switch and wires provided for DC (analog) operation if desired

HO TRACKSIDE TURNOUT DECODER
(illustration shown)
Item No. 44950
Suggested price: \$45.00
SHIPPING 2020

This Trackside Turnout Decoder lets you upgrade your electrically operated analog turnouts to DCC quickly and easily. With the decoder installed inside the trackside structure, this flexible design can be used two ways. Advanced modelers can solder it to their control circuit board and hide the wires through a hole in the structure. For plug-and-play use with *E-Z Track*[®], simply snap off the break-away tab and plug in your *E-Z Track*[®] connectors. Once connected, you can assign decoder addresses and operate your turnouts through your DCC system.

EM-1 2-8-8-4 STEAM LOCOMOTIVE (DCC ECONAMI™ SOUND VALUE-EQUIPPED)

Performs best on 11.25" radius curves or greater

Suggested price: \$499.00 each

SHIPPING OCTOBER

An articulated engine that provided tremendous power at high speeds, the EM-1 was ideal for hauling passengers and heavy loads of coal up and down the Appalachian Mountains. It joins our N scale *Spectrum*® line equipped with an *Econami*™ *SoundTraxx*® steam package. Factory-set for EM-1 realism, the steam package offers a choice of 16 whistles, multiple variations of 6 bell types, 4 prototypical chuffs, 5 airpumps, and 4 dynamos plus cylinder cocks, grade crossing signal, blowdown, brake squeal/release, coupling/uncoupling, and water stop—all in 16-bit polyphonic sound.

Features include

- DCC sound-equipped with *Econami*™ Sound Value package
- dual-mode NMRA-compliant decoder
- die-cast boiler and frame
- twin brass flywheels
- all-wheel pickup in engine and tender
- soft white LED headlight and backup light
- separately applied handrails and stanchions
- detailed backhead
- traction-tire equipped
- chemically blackened wheels
- *E-Z Mate*® Mark II couplers

NORFOLK & WESTERN CLASS J 4-8-4 (DCC ECONAMI™ SOUND VALUE-EQUIPPED)

Performs best on 11.25" radius curves or greater

Suggested price: \$439.00 each

SHIPPING NOVEMBER

The "J" was the last mainline steam engine to run in the United States. Our N scale Class J is making a new run, equipped with a *SoundTraxx*® *Econami*™ steam package. Factory-set for Class J 4-8-4 realism, the steam package offers a choice of 16 whistles, multiple variations of 6 bell types, 4 prototypical chuffs, 5 airpumps, and 4 dynamos plus cylinder cocks, grade crossing signal, blowdown, brake squeal/release, coupling/uncoupling, water stop, and "All aboard"/coach doors—all in 16-bit polyphonic sound.

Features include:

- DCC sound-equipped with *Econami*™ Sound Value package
- precision motor
- die-cast boiler, underframe, and tender frame
- separately applied detail parts and laser-cut exterior detailing
- die-cast finescale driver spokes
- *E-Z Mate*® Mark II coupler, rear

GP40 DIESEL LOCOMOTIVE (DCC ECONAMI™ SOUND VALUE-EQUIPPED)

Performs best on 11.25" radius curves or greater

Suggested price: \$279.00 each

SHIPPING NOW!

The GP40 was considered the top of EMD's four-axle line when first offered in the 1960s. It was visually distinguished from earlier GPs by three radiator fans along its long hood. Bachmann's new N scale Sound Value model is *SoundTraxx*® *Econami*™ equipped. Factory-set for GP40 realism, the diesel package offers a choice of 5 prime movers, 16 airhorns, multiple variations of 7 bell types, 2 air compressors, and 3 couplers plus a function-activated grade-crossing signal—all in 16-bit polyphonic sound. *Econami*™ includes adjustable auto-notching sensitivity for prototypical operation, adjustable master volume and individual sound effect volume levels, advanced consisting, and more.

Features include:

- DCC sound-equipped with *Econami*™ Sound Value package
- dual-mode NMRA-compliant decoder
- directional headlights with Rule 17 dimming
- precision motor
- flywheel
- die-cast frame
- fine-scale handrails
- illuminated number boards
- separately applied detail parts
- *E-Z Mate*® Mark II couplers, front and rear

2-6-2T BALDWIN CLASS 10 TRENCH STEAM ENGINE (DCC WOWSOUND®-EQUIPPED)
FEATURING NEW CHUFFINITY™ TECHNOLOGY
 Performs best on 18" radius curves or greater.

Suggested price: \$459.00 each
SHIPPING SEPTEMBER

Quickly created narrow gauge railroads played a crucial role in bringing food, ammunition, and construction material to entrenched troops and carrying away injured soldiers from the Western Front in World War I. The Baldwin Class 10 Trench 2-6-2T was one of the locomotives that saw service with the U.S. Army in France. When the war ended, the victorious U.S. troops turned over all the railways and equipment to the French, who adapted them to agricultural use. Bachmann's DCC WOWSound®-equipped model is the first ever to feature Chuffinity™ technology. Featuring a ten-fold increase in the number of chuff sounds over previous WOWSteam offerings, Chuffinity™ creates amazingly diverse and realistic sounds. Coupled with intelligent load and grade sensing, chuffs will vary in character, volume, and intensity in prototypical fashion. Chuffinity™ is just part of this Trench engine-specific WOWSound® steam locomotive sound package that also features depot background and battleground sounds. Bachmann's new DCC sound-equipped Trench engine will put you in the middle of all the action of the Great War!
