

Now Arriving in Large Scale General Electric Dash 9 Locomotives

LARGE SCALE
**LARGE
SCALE**

Building on the success of the era-defining Dash 8 series, the General Electric-built Dash 9 is recognized as one of the most popular freight locomotives in modern history. Packing 4,400 horsepower, this iconic locomotive has seen service with almost all class-one railroads and continues to lead priority road freights across North America today. The Bachmann *Big Haulers*® Dash 9 arrives factory-equipped with DC control, operating headlights, ditch lights, and walkway lights, interior cab lighting, exhaust smoke, a fully

detailed cab with painted engineer figures, and a plug-and-play circuit board for the addition of the control system of your choice.

Two Road Numbers for Each Paint Scheme
Now Available in Large Scale

CSX® #9030

CSX® #9044

Item No. 90901

Item No. 90906

Modern Freight Cars Arriving Soon to Complement Your Dash 9 Locomotive!

Evans 53' Boxcar with Flashing End-of-Train Device Shown Above

Three new 1:29 scale freight cars join our line this year to give your Dash 9 some scale and era-appropriate rolling stock to haul. Our Evans 53' Boxcar will be arriving first with four examples featuring operating flashing LED End-of-Train Devices, operable both through track and battery power. Arriving later this year will be a range of non-End-of-Train Device equipped Evans 53' Boxcars with different road numbers and additional paint schemes, and eight Bethlehem Steel 100-Ton Hoppers painted in four eye-catching liveries. Don't miss out on all of these great releases - make sure you're subscribed to our newsletter, and follow us on social media for the latest updates!
