# Flexible **NEW!** Timber Cribbing Walls

Peel and Stick Self-Adhesive Backing

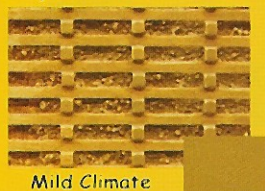

Comes in Three sizes: Small, Medium and Large

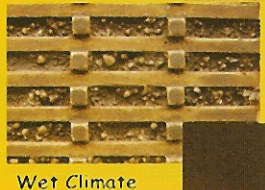

The Best in Miniature Modeling

Size 3.75" x 12"  
MSRP \$12.99 each

You can use acrylic washes with soapy water. Note the color suggestions, depending on your model's climate.

Mild Climate

Wet Climate

Dry Climate

Welcome to the new world of creative model building using our new flexible tooling by Chooch. You will find our products incredibly easy to use and fun to make things that used to take hours to scratch build. Over time, Chooch will be releasing many new products to make your hobby more creative.

This vinyl material is easy to cut with scissors or with #11 modeler's blade. You can also create corners by scoring the front and bending the casting from the back allowing the vinyl to stay attached.

Choose the size you need. Below is a rough illustration of each wall. Each wall can be used in ANY scale, since different walls are used for various structural applications.

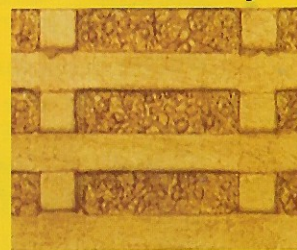

## Actual Sizes

#8500 Small Cribbing HO/N

#8502 Medium Cribbing HO

#8504 Large Cribbing HO/O

Easy to Paint too!

# HO Loads

## Loads for all scales

All of these loads will fit in most HO gondolas and flat cars. Most come extra long and can be cut with a modelers hack saw. Use them for scenery and vehicle loads too.
