

## *Great Gift Ideas for Every Modeler!*

*Sale Ends  
1-15-19*

Dear friends,

The house is quiet at long last. The kids are in bed. The TV is off. The living room is dark, save for the bright little light that shines along the tracks below the tree. Once more the magic of the holidays comes rushing back from the past, preserved forever as the train you received that Christmas long ago roars to life once more.

Whether setting up your first Christmas train this year, or carrying on a tradition that stretches back over time, train sets are one of the best ways to make memories old and new. The trains may have changed since your first one, but model railroading is as much fun as ever, and a visit to a local hobby shop is an excellent place to get started (or start over!), where you can see what's now available, from traditional starter sets to accessories.

Now if your favorite model railroader still hasn't found time to write to Santa this year, we have great ideas in our Holiday Gift Guide starting on page 4, and hundreds of additional items on the following pages that will keep the fun rolling throughout the year.

From our house to yours, thank you for making Walthers a cherished part of your own holiday traditions, and warm wishes for a merry Christmas and a happy and healthy 2019!

Steve Walthers Naffah

# Home for the Holidays

"Oh gosh, this? No sir, this is nothing! Now when I was a kid, whoosh, I'll tell you brother, those were real winters...." Your breakfast companion was right, and even the warmest memories of this morning's Fred Harvey apple pie and coffee in the diner are no where near enough to prepare you for what's coming. The Arctic blast that greets you as the steps drop down and the vestibule door opens is enough to freeze you in your tracks. Good thing your wife is along and the in-laws are waiting, or you'd be very tempted right here and now to turn around and get yourself a ticket on the next Santa Fe westbound for home! Winter can be challenging for real railroads, but it actually opens lots of possibilities for modeling with Cornerstone® structures, WaltherMainline® diesels, passenger cars, scenic accessories and more available from Walthers.

### A Note on Availability

At Walther's, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check [walther's.com](http://walther's.com), email us at [custserv@walther's.com](mailto:custserv@walther's.com) or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walther's and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

## 45' Stoughton Trailer 2-Packs

Following new regulations adopted in the 1980s, truckers and railroads rushed to update their fleets and many kept their Stoughton trailers in service well into the 1990s. Perfect for period road or rail service, the models feature realistic underbodies and colorful period schemes with two trailer numbers in each set.

## 53' Stoughton Trailer 2-Packs

Bigger is better for shippers and receivers alike and these trailers are currently the largest in North American highway and rail service. Perfect for layouts from the 1990s to the present, each includes two ready-to-use trailers with different numbers, "see-through" roof, four latch bars for intermodal service, "sliding" undercarriage/wheels and landing gear in up and down positions.
