Celebrating SPIKE 150

With four years and 1776 miles of sheer grit and determination behind them, a few hundred workers and camp followers stood by to watch as east and west became one on May 10, 1869. Most probably sensed they'd been part of something much bigger than themselves, having forever changed the course of America. Today, some of the same right-of-way they hand-carved out of the wilderness still thunders to the passage of miles-long freights and fast-moving Amtrak trains... and if there are any ghosts in the shadows, perhaps they nod and smile, knowing their legacy lives on 150 years later.

Our trains might be smaller, but our dreams and goals are just as big, and whether you're getting started or starting over, Walther's is ready to help with the supplies you need to bring your railroad to life.

Take a break from summer heat and humidity with the exciting new products, supplies and super savings packed into this combined issue!

Rush your postwar HO streamliners behind our new Walther'sProto® FP7 diesels! Packed with railroad and era-specific features, turn to pages 8 and 9 inside for your first look at these classic speedsters!

A perfect blend of tech and HO trains for modelers of every age, check out the Flyer Express in your choice of WiFi DCC control or Standard DC versions, more realistic Power-Loc™ track, and the new Standard DC EMD GP15 Diesels, all from Walther'sTrainline™, and featured on page 10!

From the 1960s to 1980s, you'll need several of the new Walther'sMainline® 40' American Association of

Railroads (AAR) Modernized 1948 Boxcars for your HO diesel-era railroad! Turn to page 12 now for a complete list of features and roadnames.

Start a building boom in your N Scale industrial areas with the all-new UPS® Hub with Customer Center, and Truck and Railroad Docks from Cornerstone®. Find details and photos on page 13!

Find out more about these new models at walther's.com, by calling us at 1-800-487-2467 or visit your participating hobby shop to reserve any new product in this issue.

Happy modeling!

A Note on Availability

At Walther's, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walther's.com, email us at custserv@walther's.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walther's and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

HO Transcontinental Digital Sound Train Set

Bachmann. History was made 150 years ago when the Transcontinental Railroad was completed in Promontory, Utah, on May 10, 1869.
