Power to Tackle any Job!

Humble locals don't usually warrant main line power, but when that's what's serviced and first out on the ready track, you do what you have to do! Mind you, crews aren't complaining one bit about the smoother ride, and having the extra power to keep heavier trains moving is a real plus too. Like their prototypes, WaltherMainline® SD70ACe diesels have power to spare thanks to their proven WaltherProto® drive, coupled with great detail and affordable prices that make it easy to build a fleet for any job. This month's photo includes a sneak peek of one of the new BNSF models due in December, along with the first samples of our latest 72' Centerbeam Flatcars!

A Note on Availability

At Walther's, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walters.com, email us at custserv@walters.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walther's and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.
