ON THE COVER

Through the heart of big cities, alongside the main streets of small towns, in remote mountain passes, across endless fields of grain... no matter where you travel you're sure to find the steel arteries that bind America. From first survey to last spike, every rail line has a story to tell, as a monument to the past and a foundation for the future. While our prototypes faced some pretty big construction challenges, today it's easier than ever to design and build authentic track in your favorite scale. Whether starting to expand or starting over, our annual Track Sale brings you a wide selection of layout-ready products and accessories, available now at great prices, starting on page 14 inside.

@waltherstrains

Beauty and a BEAST!

Legend has it EMD didn't set out to make its new GP series especially pretty – that was what E and F Units were for. But as railroads began shedding their somber schemes in the 1950s, those otherwise Plain Jane engines came rolling out of La Grange and London in every color you can imagine. Today, with 60+ years of service to their credit, high-hood EMD GP9s can still be found on the job! The newest member of the WaltherMainline® fleet captures the classic lines of engines built from 1955 to 1957 (known as “phase 2” production to modelers and railfans), in six colorful schemes and an undecorated version for the do-it-yourselfer. Available with ESU sound and DCC for DCC- and DC-powered layouts, and featuring the proven power of the WaltherProto® drive, turn to page 4 for more details!

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.
