WELCOME

Warm and grateful greetings,

What an unusual and challenging time it has been in the big world that surrounds us. We're so glad you've chosen to spend time with us – working on that little world under your control. What a perfect way to tune out the noise and to decompress from the stress that surrounds you.

I hope you, your families, and your friends are healthy and well right now. I hope you are navigating the challenges and disruptions to your routine, to your work and home life, and to your sense of well being as smoothly as possible. I recognize that it likely is not, nor has been, easy.

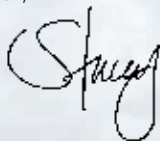

I truly hope that you are finding comfort, solace, productivity, and some fun(!) in your hobby right now. I hope you are able to feel connected to your fellow modelers and to a sense of normalcy and control over your own world that's comforting.

Rest assured we have been and will continue to do everything we can to keep our team members safe as we serve you. We appreciate the patience you've shown us as we've evolved our operations to meet the needs of the public health crisis – we've had to make some significant adjustments.

Thank you for your support – it means so much to all of us. I remain convinced that 'challenge breeds creativity'... and it gives me great joy and hope. We are all so pleased to see what you are creating – please, keep sharing it with us, and with each other. What a wonderful way to feel connected while we must have distance between us.

Sending good thoughts and good health to you all.

Be well,

ON THE COVER

Morning commuters usually pay little attention to the grimy factories and warehouses that line their route to the city. But here and there, a flash of color signals where an overnight wayfreight has tucked a car into a short siding. With the clock ticking towards the start of the inbound rush, this hard-working crew calls it a night, making one final reverse move to couple up to their caboose before heading back to the freight yard. With densely packed buildings, tracks shoe-horned into and above busy streets, and day and night operation, city railroading is a perfect theme for layouts big or small! Walthers has a full range of HO models, from Cornerstone® structures like the Urban Steel Overpass (933-4561) and Urban Retaining Walls (933-4562) to freight equipment like the all-new 57' Mechanical Reefer (910-3900 series) from WalthersMainline®, to bring your city scenes to life!

Something old, *something new!*

Seen any old freight cars lately? Chances are you have, especially cars still wearing the names and colors of former owners. Some may be just a glimpse of the past, repainted but wearing reporting marks from lines that have long-since faded into history. Real railroads are obliged to retire or rebuild cars after 40 years of service (rebuilt cars are finished at 50), but some roll along for years after in maintenance service.

While railroads may have to follow the rules, as modelers we can easily build a fleet for a specific era or eras for our favorite railroad. With a growing selection of HO models, WaltherMainline® brings you plenty of choices with cars from the days of steam to the equipment you see trackside today. Combining models old and new, check out some of our latest releases in this scene including:

A Note on Availability

At Walther's, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walther's.com, email us at custserv@walther's.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walther's and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

RESERVE YOUR 2021 REFERENCE BOOK TODAY!

Put your modeling on track with a new Reference Book for 2021! Updated with all of the latest announcements, items and features, you'll have instant access to thousands of products for planning and building in HO, N and Z Scales, and so much more including our inspirational sections "The Magic of Model Railroading" and "Walthers Class of 2021 Yearbook"!

THE YEARBOOK IS YOUR BOOK

Showcasing and sharing our favorite hobby takes many forms, and our annual Yearbook feature salutes modelers' efforts worldwide. Last year brought inspiring entries from dedicated modelers both young and old.

Covering four unique categories, tell us what you, your club, a friend, or your favorite dealer have done this past year. To get started, just go to walthers.com/2021-yearbook for complete entry details. Winners receive not only a place in our history, but cool prizes as well!

Meet the modelers of tomorrow today! Whether starting out or starting more advanced projects, share the excitement of a young person age 15 and under who really has a passion for the hobby.

WELCOME

Warm and grateful greetings,

What an unusual and challenging time it has been in the big world that surrounds us. We're so glad you've chosen to spend time with us – working on that little world under your control. What a perfect way to tune out the noise and to decompress from the stress that surrounds you.

I hope you, your families, and your friends are healthy and well right now. I hope you are navigating the challenges and disruptions to your routine, to your work and home life, and to your sense of well being as smoothly as possible. I recognize that it likely is not, nor has been, easy.

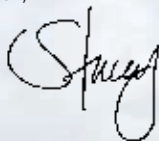

I truly hope that you are finding comfort, solace, productivity, and some fun(!) in your hobby right now. I hope you are able to feel connected to your fellow modelers and to a sense of normalcy and control over your own world that's comforting.

Rest assured we have been and will continue to do everything we can to keep our team members safe as we serve you. We appreciate the patience you've shown us as we've evolved our operations to meet the needs of the public health crisis – we've had to make some significant adjustments.

Thank you for your support – it means so much to all of us. I remain convinced that 'challenge breeds creativity'... and it gives me great joy and hope. We are all so pleased to see what you are creating – please, keep sharing it with us, and with each other. What a wonderful way to feel connected while we must have distance between us.

Sending good thoughts and good health to you all.

Be well,

ON THE COVER

Morning commuters usually pay little attention to the grimy factories and warehouses that line their route to the city. But here and there, a flash of color signals where an overnight wayfreight has tucked a car into a short siding. With the clock ticking towards the start of the inbound rush, this hard-working crew calls it a night, making one final reverse move to couple up to their caboose before heading back to the freight yard. With densely packed buildings, tracks shoe-horned into and above busy streets, and day and night operation, city railroading is a perfect theme for layouts big or small! Walthers has a full range of HO models, from Cornerstone® structures like the Urban Steel Overpass (933-4561) and Urban Retaining Walls (933-4562) to freight equipment like the all-new 57' Mechanical Reefer (910-3900 series) from WalthersMainline®, to bring your city scenes to life!
