ON THE COVER

No matter what era or area you model, good track is essential to any layout! Best of all, there's an incredible variety of products available to make construction fast and fun, including the new Walther's Track™ #6 Double Crossover (948-83051) and #10 Turnouts (948-83021 and 948-83022) shown here. Whether you're finishing up a small project, starting a brand-new layout, or looking for easy ways to expand operations, you'll find plenty of essential products and supplies along with great prices, during our annual track sale, starting on page 18 inside.

THE BEAUTY OF BOXCARS

Morning is here and soon you'll spot the clerks making their way along these tracks, confirming car numbers and waybills. Switch jobs will be on duty soon after, making up and breaking down trains, and delivering or picking up cabooses from the service tracks. Road crews will arrive and couple up, car men will make their final inspections before departure. The conductor or flagman will hang the marker lights at the back of the caboose, and the long string of cars officially becomes an outbound train. At the heart of all this activity, you'll find boxcars of every size and color, coming and going all across the US, Canada and Mexico. Dressed in a rainbow of colors, often sporting slogans for services of all kinds, boxcars were the heart and soul of freight car fleets for well over a century. For modelers, they instantly set the time and place of our layouts, and make it easy to model prototype operations simulating loads and empties in transit. Creating realistic scenes like this is easy with the growing selection of WaltherProto® and WaltherMainline® models.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walters.com, email us at custserv@walters.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.
