Stacey Walthers Naffah receives Hobby Manufacturers Association prestigious Bobbye Hall Distinguished Service Award

Stacey Walthers Naffah alongside her father, Phil Walthers (left), former President of Wm. K. Walthers, Inc., and Larry Price (right), recipient of the Hobby Manufacturers Association's Model Railroad Industry Hall of Fame award.

Wm. K. Walthers, Inc. is pleased to announce Stacey Walthers Naffah has won the 2022 Bobbye Hall Distinguished Service Award for her ongoing efforts to promote and grow the hobby of model railroading. As the fourth generation of the Walthers family to oversee day-to-day operations of the firm started by her great-grandfather in 1932, Stacey assumed the role of President in 2018 and continues to champion programs and products aimed at everyone from young children to experienced modelers. In addition to her work at Walthers, Stacey has also served as a past President of the Model Railroad Division of the Hobby Manufacturers Association, and is currently serving as the President of the World's Greatest Hobby, Inc, a non-profit organization working to introduce and promote the hobby.

In accepting the award at the National Train Show in St. Louis, Stacey remarked "I've always wanted to pursue meaningful

work that has an element of fun, and I find great meaning in working for my family's business and in advocating for this great, fun, rewarding hobby of ours. I believe in what we do and invite everyone to promote the hobby's value in today's world, too."

Named in honor of the late Bobbye Hall, a prolific supporter of the hobby in a career that spanned 55 years, the award recognizes individuals and organizations for their outstanding service to the model railroad industry.

A Note on Availability

At Walther's, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walther's.com, email us at custserv@walther's.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walther's and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

JOIN THE SCENERY REVOLUTION WITH TWO NEW VERSIONS OF THE GRAS-MASTER!

From its introduction in 2005, the Noch Gras-Master has become a favorite tool for railroad, vehicle, military, architectural and other models. By creating a static charge, individual grass fibers remain upright as they're applied to a layout surface, creating amazingly realistic tall grass, weeds and other vegetation for any season. Building on its success, Noch rolls out two new versions of this popular tool, which has been redesigned for easier use and great results!

- Ergonomically re-engineered new design
- Wider handle
- Shorter container with sieve for better charging

Gras-Master 3.0

528-60110 \$219.99

Perfect for any modeler's workbench, this compact and powerful version of the Gras-Master runs on a single 9v battery (not included), with an 11kv charging output, and an average run time of three-four hours. Its smaller size and lighter weight make it ideal for big or small projects and touch-ups. Comes complete with Fine, Medium and Coarse Sieves and instructions.

Gras-Master PROFI

528-60112 \$339.99

Developed for the special needs of professional model builders, this unit provides an extremely high power output of 16kv to electrostatically charge grass fibers (sold separately), using eight AA batteries (not included) with a run time of 10-12 hours. Fine, Medium and Coarse Sieves and complete instructions are included.

REALISTIC STATIC GRASS IS EASY TO MODEL!

1) Apply glue to layout surface, such as Noch Grass Glue #528-61130 or 61131

2) Load grass fibers into the cylinder - mix and match for more variety and realism

3) Insert the grounding pin where grass is to be applied and connect the alligator clip

4) Apply fibers - the electrostatic charge keeps the fibers upright for more realism

STARTER SETS MAKE SCENERY MODELING EASY!

Noch makes it easy to find exactly what you need to add realistic scenery to your layout with these complete Vegetation Starter Sets! Selected by experienced modelers, each comes with all the standard Noch grass, flocking and groundcover needed to model a small scene, but can easily be expanded using additional matching items available separately. A wide range of sets are available for any scale, including these popular items:
